SPEAKER: Deanna L W Squires BSN RN, SANE-A, SANE-P, FNE, CCM

Deanna is currently the Coordinator / Manager of the SANE Program with Gila River Health Care.

Deanna has worked diligently in collaboration with their multidisciplinary team within the Gila River Indian Community to develop, implement, and establish the SANE Program for the Gila River Indian Community. She began her career in forensic nursing in 2013, and is SANE certified for adult / adolescent and pediatric populations. She has extensive training in DV/Non-fatal

Strangulation, sexual assault, abuse, neglect, and human trafficking, and has provided education for The University of Arizona, GRIC law enforcement, prosecution and EMS, and GRHC staff. Deanna has always been passionate about forensic nursing and helping victims of violent crimes.

Deanna will continue to learn and teach, and help expand knowledge and awareness of violent crimes, the effects on people, and interventions / resources that may be implemented.
